

Environmental Policy

Moving To Protect Our World

The principal mission of the US Army Transportation Center and School at Fort Eustis is to train Army personnel in various tasks including the maintenance and operation of land-based transportation equipment, ocean-going vessels, and the maintenance and operation of helicopters. Fort Story is a major sub-installation and a critical joint operation training center for Army, Navy, and Marine Corps units.

Comply with all applicable environmental policies, laws, regulations, and other requirements.

Identify potential sources of pollution and meet or exceed Army goals for prevention of pollution.

Assess the effects on the environment of activities, projects, training exercises, products, and services before implementation. Set objectives and targets to minimize adverse environmental impacts. Implement and monitor programs to achieve objectives and targets in our environmental management system.

Conserve and preserve natural and cultural resources so they will be available for present and future generations to use.

Restore previously contaminated sites as quickly as funds become available.

Promote continual improvement in our environmental management system.
